CARDINAL GIBBONS, CATHOLIC CHURCH HEAD DEAD

BALTIMORE, MD., March 24.—Cardinal Gibbons, archbishop of Baltimore, and primate of the American Catholic hierarchy, died at the arch Episcopal residence here to-day, after a prolonged illness which mainly affected his heart. He was in his 87th year.

The end came peacefully at 11:33 o'clock.

Cardinal Gibbons, who had been showing pronounced signs of improvement in health ever since his return home about January 1 last, from Union Mills, Md., where he was taken ill early in December, suffered a relapse Palm Sunday evening.

The sudden change of weather which brought unseasonable high temperatures, had a depressing effect upon him. His fainting spells returned and when he was put to bed, from which it was realized by those closest to him, he probably never again would arise.

Cardinal Gibbons' physicians said repeatedly in the early stages of his illness that he was sound, organically, as could be expected in a person of his years, but that he suffered from the effects of his age and from fatigue that resulted from the prodigal expenditure of his energies in the performance of his duties as senior prelate of the Catholic church in this country.

Cardinal Gibbons was born in Baltimore, July 23, 1834. His parents, Thomas and Mary Gibbons, had come to America from Ireland in 1829. They returned to their native land when the future cardinal was two years old.

He entered St. Charles College at Elliott City, Md., and graduated in 1857. He then entered St. Mary's Seminary in Baltimore and was ordained a priest by Archbishop Kenrick June 6, 1861.

In 1872 he was promoted to the see of Richmond, Va., and on Oct. 2, 1877, was made archbishop of Baltimore, gaining with it the title of Primate of the United States, it being the oldest see of the Catholic church in America.

Archbishop Gibbons presided over the Third Plenary Council of Baltimore in 1884 and in 1886 he was created Cardinal by Pope Leo VIII.

THE TOBACCO MARKETS

Prices of tobacco on the Paris market have remained at practically the same level as has been maintained for the last two weeks. A large amount of the tobacco sold was of an inferior quality, but the bidding was spirited, and nearly all grades brought fair prices. Rejections, receipts and passed baskets have passed almost entirely out of the tobacco market now, and buyers and farmers are anxious to finish up the work of selling the crop as soon as possible.

At the sales held Tuesday at the New Independent Tobacco Warehouse, the averages ranged from \$19.12 to \$35.48, the latter being obtained for a crop of 2,965 pounds belonging to D. M. Frederickson.

The Bourbon Tobacco Warehouse Co. sold Wednesday a total of 69,625 pounds of tobacco for an average of \$11.08. Three of the best crop averages of the sale were as follows: Gaitskill & Clayton, 1,125 pounds, average \$21.51; Dodge & Mattox, 2,970 pounds, average \$31.55; Shropshire & Bays, 2,430 pounds, average \$20.10. Wednesday, March 30, will be the last sale on the Paris market.

All organized movements for the reduction of the Burley tobacco crop in the four growing States having failed and seeing many of the producers forced into bankruptcy and others filling the graves of suicides on account of low prices and financial stringency, it is said, the farmers will voluntarily reduce their acreage forty to fifty per cent.

In the meantime, the movement to form a great marketing organization to sell the surplus in Japan and Europe is under way. In the face of these adverse conditions of the tobacco market the National W. C. T. U. is planning an active anti-tobacco campaign, to begin Sunday, April 3.

BOURBON CIRCUIT COURT

Hobart Harding, of Nicholas county, was given a sentence of one year in the Frankfort Reformatory on a charge of stealing an automobile. At the same time the automobile was stolen, Harding stole a valuable dog belonging to a farmer in Nicholas county. The machine which belonged to a Bourbon county man, was recovered in Greencastle, Indiana, where Harding had taken it.

A case which for its peculiar ending was declared to have been without precedent in this Court, was threshed out by Judge Stout. R. B. Hutchcraft, of Paris, leased a portion of one of his farms to C. S. Gross and his two sons, to be worked on the shares. When the time for settlement arrived Mr. Hutchcraft presented several claims for damages to his tenants, alleging they had failed to properly raise and harvest the crops, and had allowed their stock to trespass in the fields, causing damage to the extent of \$1,000. Gross and sons filed counter suits for a less amount. The trial of the case occupied the time of the court for an entire day, a large number of witnesses being examined. At the close of the testimony Judge Stout told the jury he was unable to give them any instructions, and for them to retire and do the best they could. In a few moments the jury returned with the following verdict: "We, the jury, find nothing for the defendants and nothing for the plaintiffs." The question arises, who will have to pay the costs in the case?

In the case of Emil Houk, charged with having stolen a touring car belonging to B. L. Day, insurance man, of Paris, on the night of March 15th. He was found not guilty. Houk drove the machine to Lexington, where, on the following day it collided with a street car. George Ann Walton, colored, charged with cutting and wounding, was found guilty and given a sentence of six months in jail, and a fine of \$150. She was charged with cutting Mary Macon, in Ruckerville, some time ago.

The case of the Commonwealth vs. Will Hall, charged with grand larceny, was postponed until Saturday morning at ten o'clock. On account of the absence of Judge Stout, who was called to Frankfort for a conference with Governor Morrow, Judge Denis Dunton occupied the bench Wednesday.

A decree granting a divorce from her husband, Yutaki Minakuchi, non-resident, was handed down yesterday by Judge Stout to Mrs. Yutaki Minakuchi, of Paris.

The entire time of the Court yesterday was taken up with the case of John S. Jones vs. I. C. Haley, of Clintonville. The case, after argument by counsel, was given to the jury. The jury came in late yesterday afternoon, reporting that they could not agree on a verdict, and were held over until this morning.

CAPT. HUTCHCRAFT'S BODY DUE HERE TO-NIGHT

A message to Mr. and Mrs. R. B. Hutchcraft, from United States Senator A. O. Stanley, at Washington, Wednesday, stated that the body of their son, Capt. Reuben Hutchcraft, which arrived at Hoboken, New Jersey, a short time ago, will arrive in Paris either to-night, or to-morrow morning. The body was sent to Camp Knox, near Louisville, which is a distribution station, and from there will be sent to Paris. The body will be accompanied by a special guard of honor.

The arrangements for the funeral have been practically completed, though some small details remain unfinished. Funeral services will be held at the Christian church, at three o'clock, Sunday afternoon, conducted by Rev. W. E. Ellis. At the grave in the Paris Cemetery the exercises will be in charge of Bourbon Post, American Legion, of Paris, assisted by visiting delegations from surrounding cities.

KENTUCKY DEBATERS WIN FROM CINCINNATI TEAM

The University of Kentucky won the debate against University of Cincinnati, at Cincinnati, Saturday, on the question of whether Congress should limit immigration from each ethnic group to 10 per cent. of the average annual number admitted to the United States from January, 1907, to January 1914. Kentucky took the negative side, but favored selection rather than decrease in numbers admitted.

M. Alperin and Clay Porter spoke for Kentucky, while Charles A. Harrel and J. E. Crawford supported University of Cincinnati.

CALIFORNIA MEN TO DRILL FOR FRUIT SAFE AGAIN BY NARROW MARK.

About seventy years ago prospectors in this section of the Bluegrass who had migrated here from other fields, struck a flow of oil at depth of seventy-five feet, on the old Hilldrift place on the Clintonville pine, now owned and occupied by Gano Hilldrift. The wells were never developed and the strike attained no commercial importance. About twelve years ago two wells were drilled on the farm now owned by Squire Lee Stephenson, two on the Haggard place, and one on the Ed. Sparks farm, the two former showing oil, and the latter gas. These also were allowed to go undeveloped.

With a view to developing and exploiting these lands for oil, a of California, and capitalized at of California, and capitalized at \$50,000, has secured leases on a large acreage of land in that vicinity, on which they propose to do a great amount of work, sinking wells and giving the territory a thorough work-out. Among the men interested in the company are I. S. Cooper, of Los Angeles, Cal., formerly of Clintonville, C. H. Clay, banker, of Los Angeles, Frank B. Darr, of Los Angeles, banker, who is president of the organization, and other men of finance, who have become interested.

The company has secured leases on the following: Lee Stephenson farm, 400 acres; Charlton Alexander farm, 200 acres; George K. Jones, 315 acres; Ed. Sparks, 690 acres; Mrs. Ed. Turner, 500 acres; Judge Shackelford (Richmond) 700 acres; Letitia, Joseph and Frank Clay, 1,000 acres; J. J. Haggard, 200 acres. A drilling outfit of the latest improved type, costing \$6,000, will be put to work in the field drilling wells between Paris and Clintonville. The stock is all to be held by members of the company, the money to be expended in legitimate drilling and developing operations. None will be offered for sale to the public.

Mr. Cooper, who has been a resident of the Texas and California oil fields since leaving his Bourbon home several years ago, stated to THE NEWS that the company is confident of making a strike in their territory, as the undeveloped wells of many years ago showed the presence of oil around the territory in which they will operate. He said this is not a wildcatting or a stock-floating scheme, but a legitimate business proposition, in which the Los Angeles financiers had such implicit faith that they propose to use their own money in developing it. He stated further that the men at the head of the Company were of the highest business integrity and financial standing and that they would show the people of Bourbon county how earnest they were in the matter of developing the oil prospects in the territory they have just acquired.

Pupils of the Paris High School are diligently rehearsing their parts in a class play, "Peaceful Valley," which will be presented in the High School Auditorium early next month. The rehearsals are being conducted under direction of Prof. Edwin Saxon, of Transylvania College, Lexington. Further announcement will be made through the city papers.

TIME DRAWING NEAR FOR MA- SONIC CONCLAVE

The 74th annual conclave of the Grand Commandery Knights Templar of Kentucky will convene in Mt. Sterling, on May 17, and remain in session for three days. Plans are being made to make this one of the most successful meetings ever held by the Grand Commander, and with co-operation of the citizens of the town and county there is no reason why this cannot be done. The house committee will, at an early date, make a thorough canvass of the town to secure quarters for the visitors.

Doctors say that sitting with the legs crossed is conducive to obesity.

LAST-MINUTE SHOPPERS CAUSE OF WORRY.

Paris merchants have called the attention of THE NEWS to the number of last-minute shoppers, who seem to make it a point to visit their stores each day at closing time, just when the salesladies are wearied from their day's efforts and anxious to leave for home and supper.

It is a frequent thing to see a number of well-dressed women, who have apparently not a domestic care in the world, delay their shopping until late in the afternoon, 5:30 or later, and then stroll leisurely into the stores and detain their employes for a half-hour or later. Oftimes, they do not buy, and even if they do, there is no reason why the purchases could not have been made earlier in the day.

One very dignified Paris matron remarked in one of the leading stores the other day, that she thought it was a shame that the stores were closed so early. She said by the time she had her luncheon at 1:30, and her nap and her daily bath, and a few other things, she really could not find time to attend to her shopping properly in the present shopping hours.

Not Edible.

Little Virginia adores her cousin Kate, but as she is only four, and has a limited vocabulary as well as an original one, she calls her "Cousin Cake." One day friend insisted on her repeating the name several times, until Virginia realized something was not just right, whereupon she announced, "Her name is Cake, but we don't eat her, 'cause her like we."

Freedom.

Freedom is the word that is many sided. There are those who boast of freedom of conscience who seem to interpret it simply as that of other people. There are those who seem to fancy that their rights as citizens entitle them to unquestioned trampling upon rights of anybody else who chances to stand in their way.—Montreal Herald.

First Studies of the Human Body. Early studies in human anatomy were conducted under many difficulties. Aristotle was among the first to study the human body, about 350 B. C. Through all the years there was objection to dissection of bodies to verify facts, and when Titian designed and had completed the first anatomical plates they were destroyed by Vesalius, about 1533.

MRS. HAYDOCK SAVED FROM AN OPERATION

Followed Advice of Her Druggist's Wife and Took Lydia E. Pinkham's Vegetable Compound

Chicago, Ill.—"I was in bed with a female trouble and inflammation and had four doctors but none of them did me any good. They all said I would have to have an operation. A druggist's wife told me to take Lydia E. Pinkham's Vegetable Compound and I took 22 bottles, never missing a dose and at the end of that time I was perfectly well. I have never had occasion to take it again as I have been so well. I have a six room flat and do all my work. My two sisters are taking the Compound upon my recommendation and you may publish my letter. It is the gospel truth and I will write to any one who wants a personal letter."—Mrs. E. H. HAYDOCK, 6824 St. Lawrence Avenue, Chicago, Illinois.

Because Lydia E. Pinkham's Vegetable Compound saved Mrs. Haydock from an operation we cannot claim that all operations may be avoided by it—but many women have escaped operations by the timely use of this old fashioned root and herb medicine.

GOOD LAND SELLS AT HIGH FIGURE

Although values of farm lands in the richest agricultural section of Kentucky have declined sharply in value from the prices obtained during the world war, sales recently reported from various parts of the State indicate that good land still is bringing a fancy price. Sales at from \$150 to \$250 an acre are reported.

An instance of high values paid for land recently was the sale of the Ashbrook farm in Bourbon county. This place sold to Jesse Booth, of Lexington, for \$48,000. It contained 120 acres.

Wires Foretell Weather.

The varying humming of telegraph wires is claimed to give experienced observers a clue to the weather 24 to 35 hours ahead. A German statement is that high shrill notes are followed by heavy falls of rain or snow of short duration, and deep humming tones, by brief light rainfalls, while buzzing tones precede a change in the weather.

KEEP LOOKING YOUNG

It's Easy—if You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 15c and 30c.

TO MAPOTHER ELECTED PRESIDENT OF L. & N.

Wihle L. Mapother, who was elevated from vice-president to the presidency of the Louisville and Nashville Railroad, had been filling the office to which he was elected, for some time, during the illness and after the death of Milton H. Smith, late head of the system. Having served under Mr. Smith for many years, Mr. Mapother's election to succeed him was not unexpected and the announcement that the directors, in meeting in New York, had elected him, came as no surprise.

Mr. Mapother began life as an office boy for the railroad more than 30 years ago. He has been first vice-president since 1905, being elected to this position when he was federal manager of the L. & N., L. H. and St. L., and N. C. and St. L. Railroads and subsidiary lines. Mr. Mapother was born in Louisville, September 28, 1872, the son of D. H. and Marie Cruise Mapother. He entered the service of the L. & N. as file clerk and office boy October 17, 1888, and remained with the road continuously.

Mr. Mapother was one of the late Milton Smith's "boys" and was trained personally by the master builder of the L. & N. in the railroad business.

MOVIE MEN ANXIOUS TO SHOW CLEAN FILMS

That motion picture exhibitors of Kentucky have no intention of running counter to public opinion in the matter of showing salacious or otherwise objectionable films was the statement made by Louis J. Dittmar, president of the Motion Picture Theatre Owners' Association of Kentucky, which met recently in Louisville. The meeting was held at the Rialto Theatre building, J. H. Stamper, Jr., of Lexington, and A. N. Miles, of Eminence, represented Central Kentucky members.

Dr. Dittmar was applauded when he said that the simplest medium for rendering the motion picture industry safe to itself is to keep the business on a plane well above reproach or criticism. The recent action of the National Association of Motion Picture Industries condemning objectionable films was endorsed.

ANNIVERSARY DAYS COMING THICK AND FAST

If you have a pet anniversary of some particular event you wish to remind the public of, send up word.

In this connection we are reminded that April 6, will be the anniversary of the battle of Shiloh, in which Kentucky troops, and especially Bourbon county men, bore a prominent part. The history written by Lieut. Lot D. Young, of Paris, gives an interesting and thrilling account of this tragic event, which was one of the most important and sanguinary encounters of that memorable struggle between the States.

W. O. Butler, candidate for Jailer, reminds us that if he is nominated to the office, the nomination will come in the nature of a birthday present, his natal day being August 6. Mr. Butler says he will be in a receptive mood that day and hopes to make the day memorable as a double anniversary.

HOUSEHOLD CARES

Tax the Women of Paris the Same
As Elsewhere

Hard to attend to household duties with a constantly aching back.

A woman should not have a bad back, and she seldom would if the kidneys were well.

Doan's Kidney Pills are endorsed by thousands. Ask your neighbor. Have been used in kidney trouble over 50 years.

Read what this Paris woman says:

Mrs. J. R. Moore, 133 E. Eighth street, says: "I was in bad shape with my kidneys a year ago. My back nearly killed me with pain. There was a steady, dull ache just over my kidneys and I was weak and miserable. I often had to let my housework go undone and I would get so dizzy that black specks came before my eyes. My feet and ankles swelled, too. I doctored for a time, but got no relief, so finally began to use Doan's Kidney Pills. My health was greatly improved in a short time and two boxes cured me. It is a pleasure for me to recommend Doan's Kidney Pills."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Moore had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (adv)

Word's Meaning Changed.
Going downstairs etymologically means ascending. The Saxon "dun" meant an upland or hill, and "a-dun" meant a descent. But in the course of time the preposition was omitted and the word "dun" came to mean down.

Bellepoint, W. Va.—"It affords me great pleasure to have the privilege to make public this statement in behalf of Dr. Pierce's medicines I cannot recommend them too highly to the public. We have used them in our family for years and have reaped good results. We have always found the 'Golden Medical Discovery' superior to any other tonic, as it is a wonderful system builder. I can cheerfully recommend it to all like sufferers."—E. J. CARPER.

CHRISTIAN CHURCH

The Christian church will begin its Easter services with a "Sunrise Prayer Meeting" at 6 a. m. The workers of the church and Sunday School are especially requested to be present at this meeting. The Sunday School will also observe Easter as "Decision Day," which is the annual custom of the school. On this occasion last year thirty-five or more united with the church from the Sunday School. The classes begin promptly at 9:30 a. m. The following services will be in charge of the regular pastor. Morning service at 10:45 a. m., subject, "The Resurrection," evening services at the regular hour, 7:30 p. m. Special music will be furnished by the choir under the direction of Mr. A. L. Boatright. The public is most cordially invited to attend these services. The Christian Endeavor Society will have their meeting at the regular hour, 6:30 p. m.

At the evening service last Sunday, Mrs. C. H. Hamilton, a missionary from China, delivered a very interesting talk relative to China. Mrs. Hamilton is the wife of Dr. C. H. Hamilton, who is at the head of the University of Nanking. Mrs. Hamilton was a classmate of Miss Helen Hutchcraft, of this city, while at Transylvania College. On last Sunday, Mr. Geo. Harp, who recently came from Spencer county, united with the church. Mr. Harp now resides in South Paris.

EASTER SERVICES AT PRESBYTERIAN CHURCH

The quartette has been giving unusual time to the preparation of the music for both of the services of Easter Sunday. Always fine, they promise especially beautiful music for this occasion. There are few or no better music-producing units in Central Kentucky than this quartette, Robert Harbeson, Mrs. Macie White Fithian, Miss Flora Hill and C. B. Mitchell. The subject of the morning sermon will be "The Easter Magnificent." At the evening hour the subject of the sermon will be "Touch Me Not." This is the second of a series of talks on "Familiar Characters." The first sermon was on the subject of "The Knocker." This one will be on the subject of the "touch me not" man or the man with a chip on his shoulder. An attractive feature of the evening worship is the singing of the popular gospel songs by a chorus choir.

The organ is supplemented with the piano, cornet, violin and quartette, an excellent combination. Everybody welcome to these services.

Hours: Sunday School, 9:30 a. m.; Christian Endeavor, 6:30 p. m.; Preaching, 10:55 a. m. and 7:15 p. m.; T. S. Smylie, Pastor.

One of the most important gatherings of church people held in Carlisle for many years will be annual meeting of the Women's Missionary Society of the M. E. Church, South.

Kentucky Conference, which will convene in Carlisle next Tuesday, March 29, and close Friday, April 1. The first session of the meeting will be held Tuesday evening, March 29, and adjournment will be made at noon Friday. All of the sessions will be held in the Methodist church.

All-day meetings will be held Wednesday and Thursday. About 135 delegates from all sections of the State will be in attendance.

To-day is Good Friday in the Episcopal and Catholic calendar. Special services will be held in St. Peter's Episcopal church, with morning prayer at 10:30, and evening

BOURBON AND FAYETTE LEADERS OF BLUEGRASS.

Farm values in the decade from 1910 to 1920 in four Central Kentucky counties—Fayette, Clark, Bourbon and Woodford—increased

from 111.6 to 144.5 per cent, according to the figures of the 1920 agricultural census of the United States Census Bureau, just made public in Washington.

Fayette county leads in the total value of farm lands and buildings, but Bourbon showed the greatest increase, from \$19,812,187 on April 15, 1910, to \$48,441,670 on January 1, 1920. Figures for Fayette and Bourbon counties follow:

Fayette—1920, \$50,366,732; 1910, \$22,744,934. Increase, amount, \$27,521,798; per cent, 121.4.

Bourbon—1920, \$35,450,00, 1910, \$19,812,187. Increase, amount, \$23,629,483.

Bourbon presses Fayette close as an agricultural county, according to the figures. Although Fayette led all the Bluegrass in the size of the 1919 tobacco crop, Bourbon leads in the crop crop for that harvest, on which the figures are based, and in the number of cattle, sheep and hogs. Fayette leads slightly in the number of horses and mules reported. Figures for 1920 for Bourbon county follows:

Animals: Numbers: Farms reporting, 1,653; horses, 5,244; mules, 2,184; cattle, 16,181; sheep, 29,294; swine, 21,022. Crops: Number farms, 2,184; cattle, 16,181; sheep, 29,294; swine, 21,022.

Number farms, 1,886; corn, 1,037; 128 bushels; wheat, 942,055 bushels; hay, 9,671 tons; tobacco, 11,361,306 pounds.

However, if the League plan of organization is not carried through the club will book a number of games with teams throughout Central Kentucky. The club will be financed by Paris citizens.

The first practice has been called for Sunday afternoon. All desiring to try for a place on the team are asked to meet at the court house at 1:30 o'clock Sunday afternoon. According to present plans games will be booked for every Sunday afternoon on the local grounds.

Members of the Commercial Club and other Paris citizens will go to Cynthiana, Monday, to attend the meeting to be held there in the interest of the Licking Valley and Blue Grass Highway, which is now being improved. The Paris party, headed by Mayor E. B. January, will make the trip in automobiles.

III For Six Months

Kuttama, Ky.—"About eighteen years ago I was bedfast off and on for about six months, suffering from feminine trouble. I doctored with two different doctors, but nothing seemed to do me any good. I was getting worse all the time. A friend came and told me to write to the specialists at Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., as the doctors here couldn't do me any good, so I wrote and they told me to take Dr. Pierce's Favorite Prescription, Golden Medical Discovery, and Pleasant Pellets according to directions, and in a short time I was 'well'."—MRS. KATE SMITH, Route 3, Box 92. All druggists.

WE ARE ALL DIPPY

Man drinks whisky and that clogs the valves; he drinks beer and that rusts the cogs; he pours down lemonade, ginger ale, buttermilk, ice water, tea, coffee, Tom-and-Jerry, hot scotch, highballs, soda water and sudsy soup and then wonders why the fires under the boilers do not burn. If one should put an ox, a rhinoceros or an ostrich through a like performance it would be dead in twenty-four hours. The simplest and plainest laws of health are outraged every hour of the day by the average man and woman.

We have searched ancient history and can not find that Adam smoked tobacco. Also we fail to find any mention that Eve wore corsets from her wishbone down to the knees. Ruth did not chew gum; Mary knew naught of powder or paint. Naomi was not all tears because her bangs would not stay snug. The Children of Israel did not make for a beer garden after crossing the Red Sea, and the Apostles danced no tangos. Rebecca, we find, never threw bon bons, chocolates, ice cream, shrimp salad, angel food and demi tasse under her straight-front at one sitting and chirped for more. Adam was the first and was made perfect, but how long would he have remained so if he had absorbed 'steen cocktails before breakfast and ate mince pie, Swiss cheese and black coffee at midnight? Suppose he had slept in a bedroom 5x7 with the windows down and two dogs under the bed? Suppose Eve had laced tight, wore high-heeled shoes, hobble figleaf skirts, peek-a-boo waists and sat up all hours of the night shoveling in chicken salad and Welsh rarebit, and balancing four pounds of dead people's hair on her head?

Looks like we are all a little bit locoed.

ALONG THE ROAD TO MATRIMONY.

When mutual admiration and confidence entwine a maid and a man, they are in the first lap of the love race. Usually, it is the young lady who is on the young man's lap and it denotes heart progress along the road to matrimony. The happy running mates pace as a team. But, no matter if one of the pair should reach the minister first it would probably result in a tie—with the preacher doing the tying. After the knot is tied the newlyweds—but that is another story. The press humorists have penned many jolly jokes and serenaded in "Topics of The Day" Films at local theatres. So, pause in your daily race long enough to meet some "Topics" about lovers "chaperoned" by THE BOURBON NEWS:

Percy—"How would you—aw-like to own—aw—a little puppy. Miss Dowley" "This is so sudden, Percy!"

Detroit News. Tony — (mischievously) — "I promise you I shall never kiss you!"

Toineette — (with surprise) — "Do you always keep your promise?"

Tony — (with mock dignity) — "Well, I keep within the law."

Rutgers Neilson. "What progress are you making toward matrimony, Edith?"

"Well, Uncle, I'm on my fifth lap."

Minnesota Foolscap. "I've been reared in the lap of luxury," said the millionaire's daughter.

"Try me for a change," suggested the impecunious young man.

Baltimore American. May—"Have you ever talked this way to any other girl?"

Ray—"No, love; I'm at my best to-night."

Penn. Punch Bowl. "When Cholly Van Rox proposed to me, he was too rattled to say a word."

"Then how did you know he was proposing?"

"Oh, my dear, his money did all the talking."

Boston Transcript. "Well, of all the nerve," she said, slapping his face when he kissed her.

"Well, then," he pouted, "if that's the way you feel about it, get off my lap."

Drum With Harmonics. Musicians find the drum an unsatisfactory instrument for lack of harmonic overtones. From India comes the description of a drum the parchment head of which is loaded with an adherent composition containing finely divided iron. Such composition lies in a central circle. Around the edge a second ring-shaped membrane is secured and the effect of the loading is to produce good harmonic overtones.

BOURBON FARM CONDITIONS

Bourbon county farmers were very busy during the past week in hauling the last of their tobacco crops to the Paris markets, burning plant beds for another tobacco crop, and breaking land for planting corn, oats and other crops. Fine weather has prevailed for several days, so the ground has been in good condition for plowing and plant beds have been quickly prepared.

The tobacco sales have kept up pretty well, and the higher average of the season, \$15.85 per hundred,

was reached last week. A poor quality of tobacco sold throughout the five days of selling for prices that were much better than during the earlier part of the year when better tobacco was on the market. Tobacco has about ceased to come to the Paris markets, and the sales will likely not be held much longer.

No Time for Work

"The trouble with a smart man," said Jud Tunkin, "is that he's liable to spend more time showin' off than he does workin'."—Washington Star.

EVERY CLOUD HAS A SILVER LINING

Don't let's forget the period between January first, 1919, and May first, 1919. For four months the business world was overshadowed by dark and ominous clouds. Then one day we awoke to see a bright spot on the horizon, and on June first, 1919, the sun shone brightly and continued to shine until October first, 1920.

Think of it! Seventeen months of prosperity, and now that the sun has gone behind the clouds temporarily, we are complaining. How ungrateful we are for the wonderful business we have enjoyed for the past five years or more.

As to the future, we are very optimistic and look for history to repeat itself before many moons. In fast, we can see the illumination in the heavens right now, and this is a sure sign of a bright and prosperous 1921.

Friendship is a great asset in business, hence this screed we are putting out. We want friends of THE NEWS to remember that we are on the side of the optimist, and that we are for banishing all this talk of the pessimist, and that we are for banishing this talk of hard hard times. This kind of talk only tends to make things worse than they really are. Brighten up, cheer up, and make the best of what it before us. A cheerful view of the business situation will become infectious and contagious, until like waves spread by a pebble cast in the water, it will spread, taking in a vast territory. Think of good times, talk good times, live good times!

WAS LUCKY FOR DENNIS, HE SAYS

Chattanooga Man States Tanlac Overcomes His Troubles—Can't Say Too Much For It

W. F. Dennis, 203 Lyerly street, Chattanooga, Tenn., formerly of Mobile, Ala., makes an interesting statement regarding Tanlac.

"It certainly was lucky for me," said Mr. Dennis, "that I got hold of Tanlac when I did, for I was just about down and out. Off and on for three years I have been down with malaria. For ten months on one occasion I was confined to the house most of the time.

"As I usually spent my winters in Chattanooga, I came back here last September to spend the rest of my life with my daughter. When I arrived here I was in a very weakened condition, for the malaria was fast getting the best of me. I had no appetite, felt weak and tired all the time and had pains in my stomach that were completely upsetting my nerves. I slept very little and got up mornings nearly exhausted. In fact I was just about 'all in' and kept getting worse.

"Five weeks ago I got Tanlac and my appetite picked up with my first half bottle. Soon I was able to sleep all night and felt like a new man. I eat any kind of food set before me and enjoy it. I have gained several pounds in weight and feel better than I have in five years. Tanlac has saved me money and given me health, too, and I can't say too much for it."

Tanlac is sold in Paris at the People's Pharmacy. (adv)

NEW HOMES BUILDING AND PROJECTED

Plans are under way for the building of several new homes for Paris people and it is stated that work on same will be started soon as the weather is settled.

The home situation is a serious problem here, with not enough to go around, and many applications from people from other sections, who wish to move here have to be turned down every week. Even rooming accommodations are hard to get.

It would be a good investment proposition if some of our citizens with ready cash would start the home building plan. It is a good way not only to help people in moderate circumstances to get homes, but will result in improving the citizenship and build up the city and community.

SWEAR OFF TOBACCO

"No-To-Bac" has helped thousands to break the costly, nerve-shattering tobacco habit. Whenever you have a longing for a cigarette, cigar, pipe, or for a chew, just place a harmless No-To-Bac tablet in your mouth instead, to help relieve that awful desire. Shortly the habit may be completely broken, and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Bac and if it doesn't release you from all craving for tobacco in any form, your druggist will refund your money without question.

Word of Norman Origin.

Our word helmet is really the diminutive form of the old Norman "healme" and means a little helm. The tendency of the French language was to drop the "l" and to substitute a long "O" sound and so we got heaume. The heaumers or healmers of medieval England were makers of helmets and the word has come down to us as the surname Homer.

Japan's Floral Favorites.

In Japan the chrysanthemum is regarded as the queen of flowers, being the imperial crest, but the cherry blossom is revered as the national flower, representing the people.

Progress in Wrong Direction.

Jud Tunkins says if he had life to live over he'd probably make the same mistakes, only own' to improved modern facilities he'd nebbe make 'em faster and more numerous.

—A small blaze was discovered on the roof of the residence of Dr. W. G. Dailey, Wednesday, about noon. The loss was but small, fully covered by insurance. The fire is supposed to have originated from sparks from the kitchen chimney. The blaze was discovered in the roof near the dining room chimney. There was no fire, however, in the dining room.

—The evangelistic meetings conducted by Herbert Yeuell, at the Christian church are attracting unusually large audiences and wide interest, both in Mr. Yeuell as an evangelist, and the character of his sermons and addresses. The services at the Christian church have been well attended since the beginning, and a record-breaking audience attended the service at the Methodist church Sunday night. Mr. Yeuell's lecture on "Quo Vadis" was so dramatically told, and the illustrations thrown from powerful machines upon the screen were so beautiful as to bring forth favorable comment from the entire community. Friday night, at the Methodist church, Mr. Yeuell will give his world-famous lecture on the "Passion Play," as seen by him in Oberammergau. This lecture will have to be seen to be fully appreciated, as it can scarcely be described on paper. It has never failed to attract large crowds of people. He will also give his lecture, "Ben Hur," at a later date, full announcement of which will be made.

—The protracted meeting which has been in progress at the Christian church, for the past two weeks, continues to grow in interest. Elder Yeuell is an earnest speaker, and his sermons are growing in force. He has captivated the Millersburg people, beginning with last Sunday night. The services through the remainder of the meeting, will be

There will doubtless be a large number of conversions during the coming week. On Saturday night he gave an illustrated lecture (Covatas). The pictures were good.
